Education

California State University – Fullerton, CA, USA Master of Science, Major in Computer Science	Aug 2024- 2026
Centre for Development of Advanced Computing, India Post Graduate Diploma in Advanced Computing	Feb 2022 - Oct 2022
University of Mumbai, Fr. Conceicao Rodrigues College of Engineering Bachelor of Engineering, Major in Information Technology	Aug 2009 - Jun 2013

Experience

Software Developer , Motilal Oswal Financial Services Ltd. – Mumbai, India	Nov 2022 – Jun 2024
- Contributed to core module development for a high-performance trading platform, integrating Kafka and Solace using Go to reduce latency by 20%. Created a Database Writer for risk management using Redis and SQL modes, and developed a trading components discovery module with TCP/IP and UDP implementation. - Developed a client-side Risk Management System (C#), configured Kafka for real-time message queuing, and utilized Elasticsearch with the ELK stack. Built demo trade generators for smooth UI emulation.	
Process Associate , CHCS Services Inc. – Mumbai, India	Sep 2021 - Nov 2021
Maintained databases for US healthcare clients, ensuring data security and integrity. Conducted routine optimizations and system checks to ensure seamless data operations.	
Partner , Jaldoot Enterprises Ltd. – Thane, India	Oct 2013 – Jul 2021
- Managed day-to-day operations, finances, and personnel. Launched a sub-broking business unit offering wealth management services through derivatives trading, diversifying revenue sources. - Digitized financial and inventory records from traditional bookkeeping methods. Developed an application for efficient personnel tracking.	

Projects

BlogSphere

- Built a dynamic full-stack blog platform with seamless content management, admin panel, user engagement, and a responsive interface. Tech: MongoDB, Express.js, React.js, Node.js., TailwindCSS
Link: <https://github.com/dgkans/BloggingSphere>

E-Adoption Portal

- Engineered a secure online adoption system with Java Spring Boot and React, featuring role-based access for users and admins, streamlined adoption processes, and orphanage management. Tech: Java SpringBoot, React.js, MySQL. Link: <https://github.com/dgkans/EAdoptionPortal>

Personnel Tracking App

- Built a robust C# application using N-tier architecture for comprehensive employee management, including roles, departments, tasks, and salaries. Integrated admin-controlled task approval, real-time employee tracking and payroll. Tech: C#, .NET, WinForms, DevExpress, MS-SQL

Technical Skills

Languages: Python, Java, C#, C++, JavaScript, Golang, Bash scripting

Frameworks/Libraries: .NET, SpringBoot, React.js, Node.js, Express.js

Databases: MySQL, MS SQL Server, Postgres, Redis, MongoDB

Tools/DevOps: Kafka, Solace, Elasticsearch, Prometheus, Grafana, Docker, Kubernetes, Ansible, Jenkins

Version Control: Git, Gitlab, GitHub, TFS
